

ALEXIS SLOAN

IT Systems Engineer | Microsoft 365 | Endpoint Management | Identity & Governance

Conshohocken, PA | asloan.pa@outlook.com | alexissloan.com

PROFESSIONAL SUMMARY

IT Systems Engineer with 6+ years of experience owning, securing, and managing enterprise Microsoft 365 environments. Specializes in Intune endpoint management (Windows & macOS), identity and access governance, and device lifecycle engineering. Proven track record of inheriting unoptimized environments and independently building stable, highly secure, and scalable infrastructure as a sole technical owner.

PROFESSIONAL EXPERIENCE

IT Systems Engineer | AKUVO

May 2025 – Present

- Inherited an unoptimized Intune environment with conflicting policies; conducted a comprehensive tenant audit and rebuilt the enterprise device management foundation from the ground up.
- Designed and deployed a complete Apple MDM pipeline: recovered Apple Business Manager (ABM) access, integrated ABM with Intune, configured Automated Device Enrollment (ADE), and established seamless end-to-end macOS onboarding workflows.
- Implemented robust endpoint security controls, including centralized browser extension lockdown across Chrome, Edge, and Firefox, and a redesigned USB restriction policy with structured exception management.
- Utilized Microsoft Graph API to streamline device inventory, automated resource tracking, and improved cross-department asset visibility.
- Conducted an Entra ID governance audit, eliminating ghost admin accounts, reducing Global Admin count, and remediating single-admin dependencies to strictly enforce least-privilege access.
- Managed enterprise Claude AI rollout from initial Team pilot to full Enterprise deployment, completing SSO integration, secure tenant configuration, and automated user provisioning.

IT & Web Infrastructure Consultant | Freelance

January 2025 – May 2025

- Provided cross-platform technical support, delivering advanced hardware, software, and systems troubleshooting across integrated Windows and Apple (macOS/iOS) environments.
- Conducted personalized technology training sessions for clients to improve system adoption, administrative operational efficiency, and security best practices.

IT Support Engineer | Nuix

January 2023 – January 2025

- Served as the primary IT Support Engineer managing 400+ users across the US and EU, ensuring exceptionally high system availability and rapid issue resolution.
- Administered core Microsoft 365 services, including Entra ID, Exchange Online, SharePoint, Teams, and OneDrive.

- Owned the complete user lifecycle management process from automated provisioning to secure offboarding, alongside end-to-end device enrollment profiles in Intune.
- Developed and launched a structured employee onboarding orientation program adopted company-wide to accelerate time-to-productivity.

Technology Risk Consultant | Ernst & Young

July 2022 – January 2023

- Advised enterprise clients on IT controls and risk management during financial audits, evaluating internal security controls and presenting compliance findings to senior stakeholders.

System Administrator | MCP Home Care Solutions

June 2019 – July 2022

- Managed identity and access management across the organizational tenant, supported infrastructure improvements, and co-led the technical build and launch of the company website.

TECHNICAL SKILLS

- **Microsoft 365 & Identity:** Entra ID, Exchange Online, SharePoint, Teams, OneDrive, Conditional Access, MFA, Least-Privilege Access, Identity Governance
- **Endpoint Management:** Microsoft Intune (Windows & macOS), Apple Business Manager (ABM), Automated Device Enrollment (ADE), Compliance Policies, App Deployment, Configuration Profiles
- **Security & Compliance:** Browser security baselines, USB restriction policies, endpoint hardening, identity risk remediation
- **Web & Systems:** HTML, CSS, WordPress site management, Microsoft Graph API, JSON, Windows and macOS advanced troubleshooting

EDUCATION

Temple University – Fox School of Business

Bachelor of Business Administration (BBA) in Management Information Systems
